We are in the Now and in the New!

Me and You

Words and Music: Seren Eppler

Climate Song to the Covenant of Mayors

I dreamt that I was living in a culture
developing on clean technology
in co-creating climate
with the nature
that's giving me this higher energy

I dreamt that I was driving through my homeland
with daffodils and windmills in the sun
And children who were playing
by the ocean
with water that is clean and full of fun

I dreamt that I could do what I desire
And therefore I desire what I do
I woke up from the dream
and became quiet:
I'm living in the dream that's coming true!

Me and You - Me and You
Living in the dream that's coming true
Me and You - Me and You
We are in the Now and in the New!

I dreamt that we're creating a communion
where everyone can live their inner call
And do it in reality
and union
where we are part of nature in it all

Me and You - Me and You
Living in the dream that's coming true
Me and You - Me and You
We are in the Now and in the New!

Finally we did do what we must do
Living in the dream that's coming true
Finally we did do what we must do
We are in the Now and in the New!

I dreamt that we're developing in nature
by promising for better or for worse
that we will be committed
to a culture
that's well-connected to the universe

Me and You - do - dodo do-do
Living in the dream that's coming true
Me and You - do - dodo - Me and You
We are in the Now and in the New!

Finally we did do what we must do
Living in the dream that's coming true
Finally we did do what we must do
We are in the Now - and in the New!

Living in the dream that's coming true
We are in the Now and in the New!

Seren Eppler

- The Climate Song was composed by Seren Eppler for Region Zealand in order to provide optimism and energy on a serious background. It is intended to be sung at meetings, in schools, and other places that are concerned with climate questions.

If you would like to know more about the climate work in Region Zealand, you can order the Regional Climate Strategy by the Local Government Regional Council for Zealand (KKR Zealand) or Region Zealand (phone +45 70 15 50 00, internet www.regionsjaelland.dk).

- Seren Eppler's songs contain musical styles and textual inspiration from continents and cultures all over the world. The songs are bound together by subtle humor and poetic meaning.

Internationally, Seren Eppler has written songs about sustainable development for the UN, and has performed at the The Earth Summit at Rio de Janeiro and the Children's Millennium Conference in England. Together with the National Danish Television (DR-TV) Seren Eppler has released a CD with the (translated) title "Flowers for a Starchild". More information can be found on www.allrightsreserved.dk.

- To find the song on YouTube, search for "Climate Song Covenant".
